Our Vision

To become market leaders in providing world-class underwater services in both in the inshore and offshore industries.

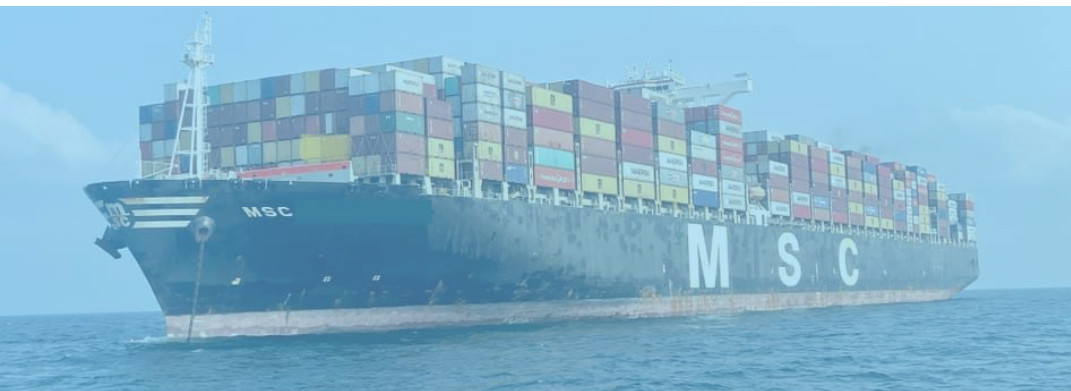

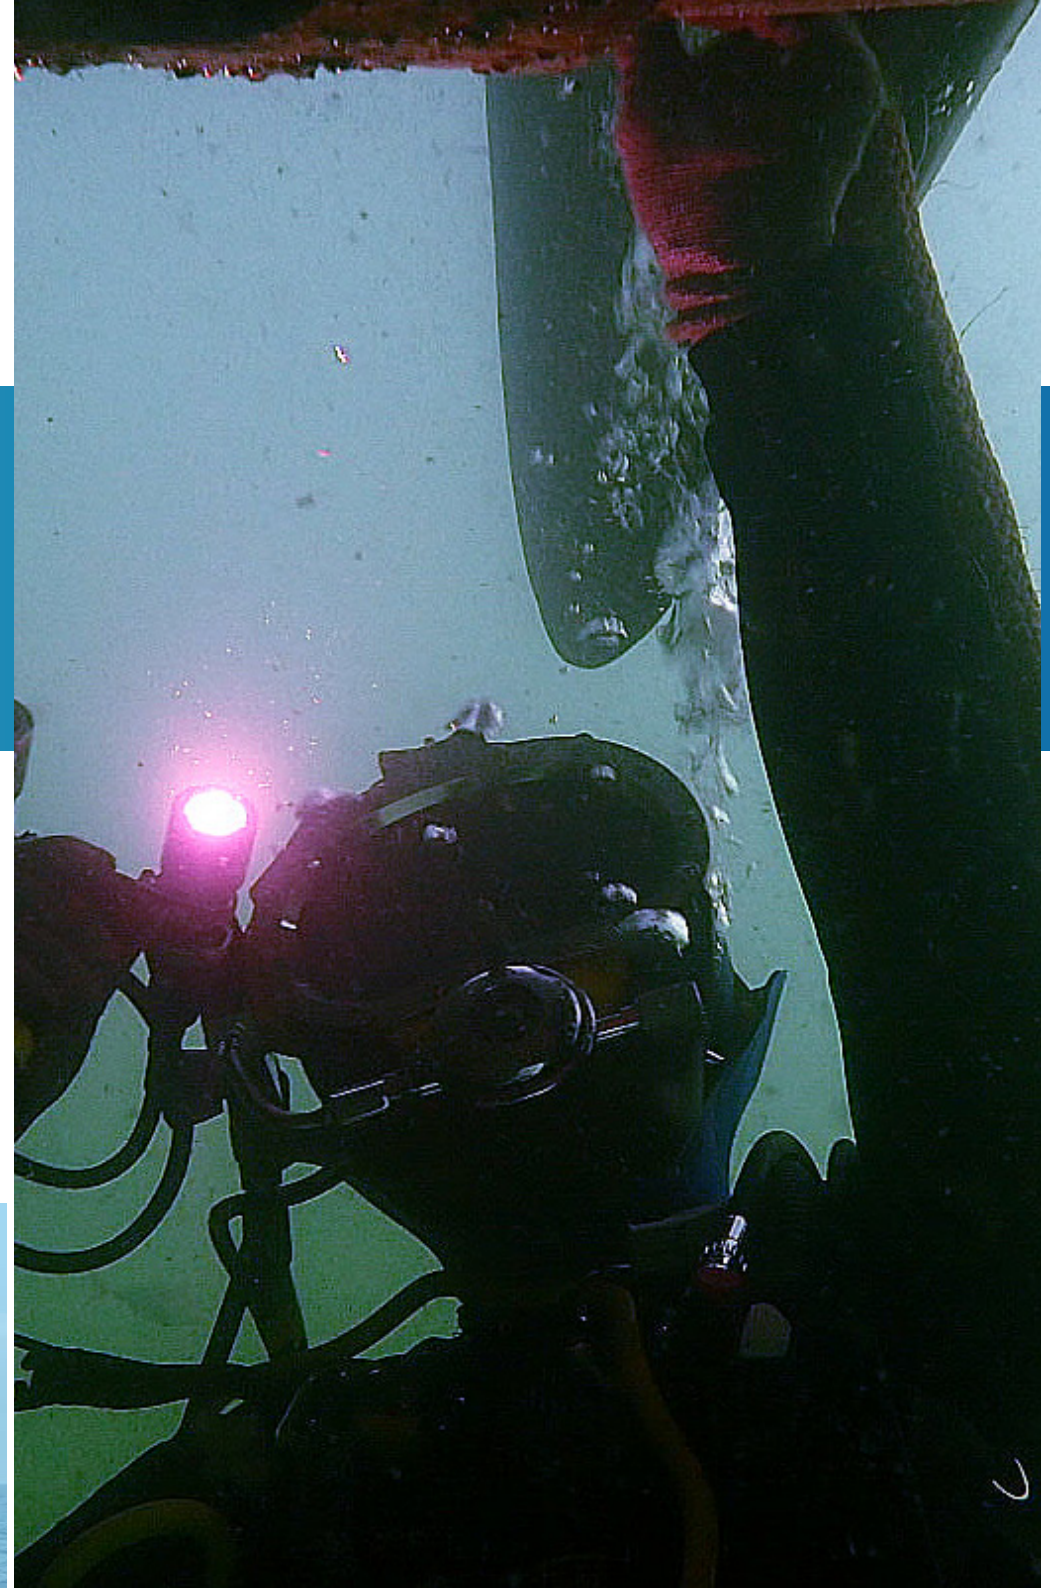

Our Commitment

We are committed to delivering reliable, high-quality and cost-effective solutions to each and every one of our clients.

Through safe working practices, we will strive to sustain a challenging and rewarding work environment for our employees.

Mission Statement

- We will continue to build upon our rich foundation of experience and professionalism.
- We will continue to strive for excellence through our hard work and resilience.
- We will continue to anchor long-term relationships with our partners, clients and suppliers.

Our Company

We are the exclusive commercial diving service providers in Thailand, specializing in underwater ship maintenance. Our highly trained staff members are professionally qualified, comply with (and exceed) international industry standards, making us one of the highest qualified companies in the nation.

Thai Subsea Services Ltd. (TSS) is comprised of a solid collection of dedicated personnel coming from a variety of different backgrounds. We consider our diversity our core strength as it gives us the ability to take on any challenge and tackle any job.

Engaging in advanced technologies, we provide a superior level of expertise and workmanship, utilizing state-of-the-art equipment at the highest level of health and safety practices.

Gaining quick dominance as the premier underwater service provider in the region has not only been as a result of our immaculate, heavy-duty hull cleanings, but also for our reputation as a competent, hardworking and efficient diving company.

As we continue the expansion project and clientele base, we keep focused on our vision and never-ending commitment to our customers.

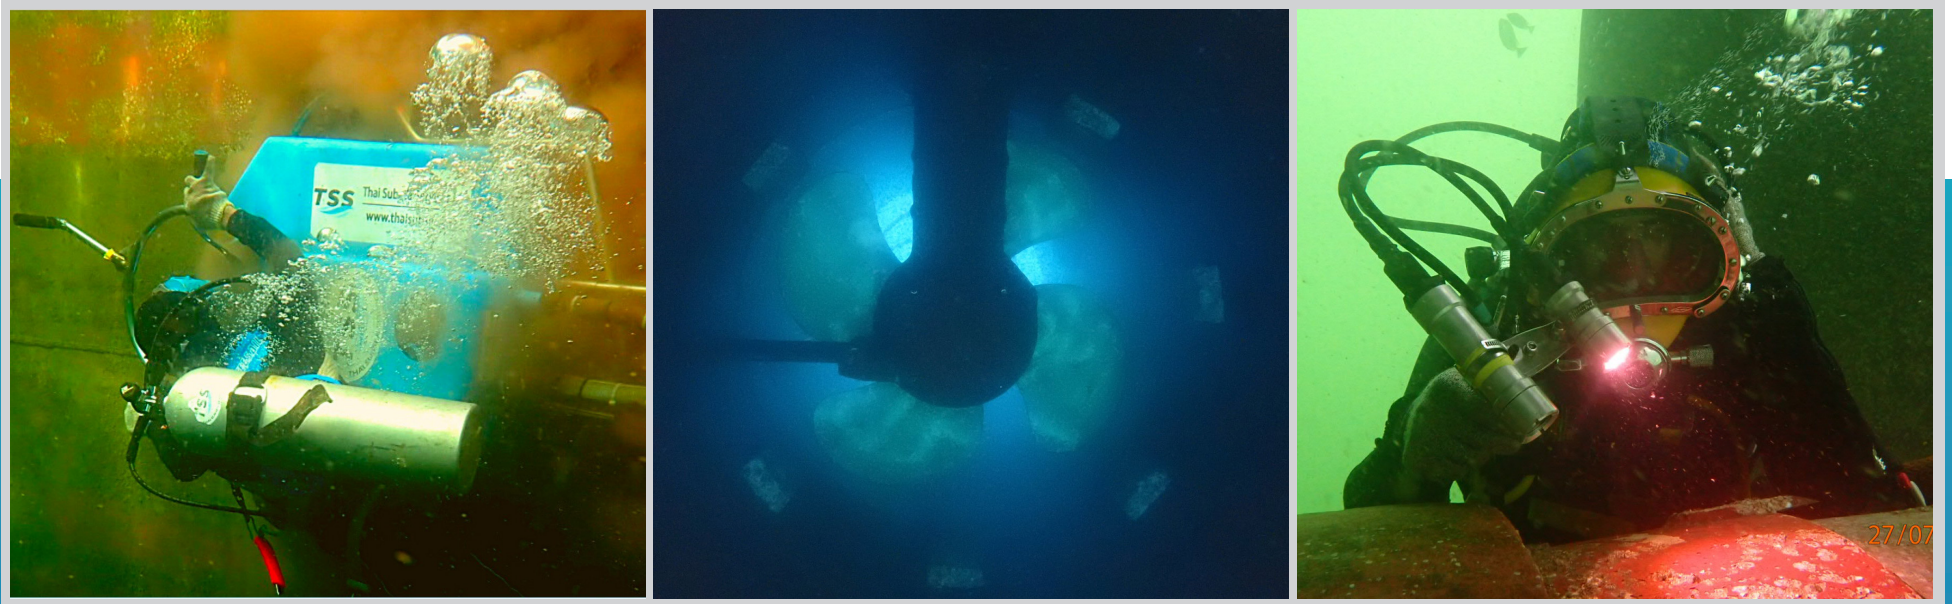

Our QHSE Policies

At Thai Subsea Services Ltd. our Health, Safety and Environment (QHSE) philosophy is to manage all work activities using a strategic process founded on management commitment, supervisor accountability and personal responsibility.

We facilitate a documented process based on safe and correct behaviors, appropriate levels of training, internationally recognized standards, fairness, and a proven system of performance metrics.
